NEW

JUDAH INSPIRE® END CAP

THE END THAT CAPS IT ALL

The NEW Judah INSPIRE® End Cap is an efficient solution to cap internal partition wall ends, cavity slider doors, internal balustrades and window openings.

INSPIRE® End Cap provides the strength required to protect the corners from impact and increase durability in areas with high traffic.

Judah® Steel

A VISION IS BORN

www.Judah-Steel.com

Save time on site with Rondo's effective, easy to install and economical solution that easily slides onto the ends of plasterboard for capping.

Special Features

0.75BMT Zinccanearl® G25 steel

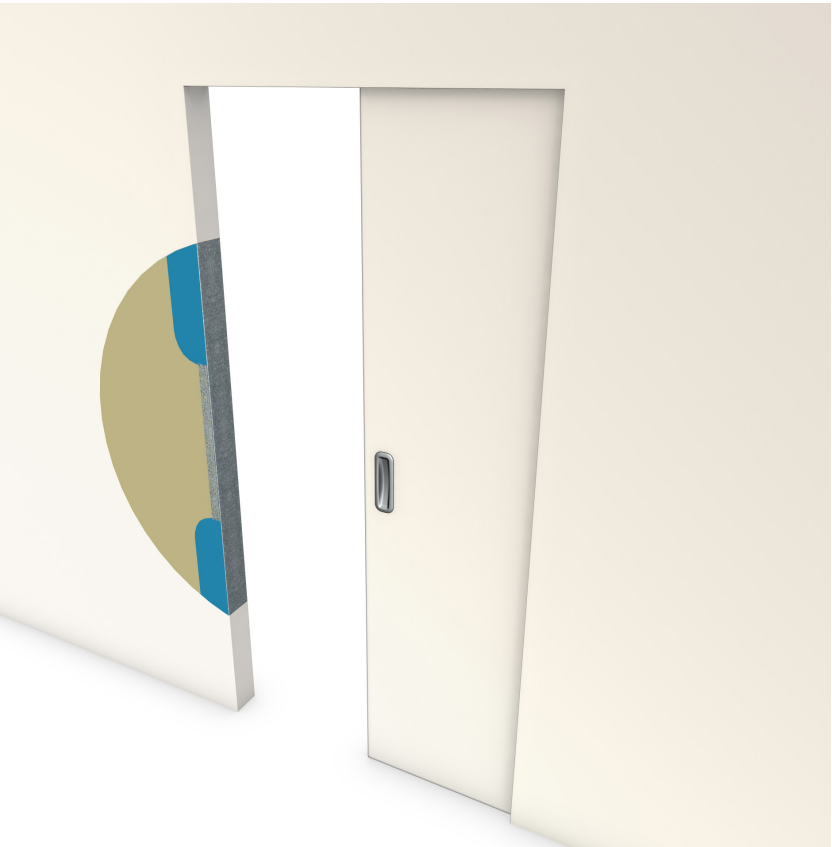

Reduced installation time by replacing two beads with one cap

Reduced compound usage as a result of less joints

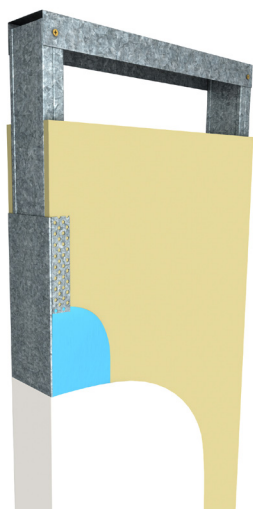

Available in a range of different sizes to suit different stud sizes and wall configurations

The Judah INSPIRE® End Cap is available in a range of different sizes to suit most commercial and residential projects.
