NEW: DUO® 9 ALUMINIUM
SHADOWLINE PERIMETER
TRIM

The new Judah DUO® 9 Aluminium Shadowline Perimeter Trim is an addition to the Judah DUO® Seismic Exposed Grid Ceiling System. The product is designed to provide the architectural appearance of a shadowline perimeter to a ceiling without compromising the benefits of the Judah 850 Perimeter Trim Sliding Clip. >>

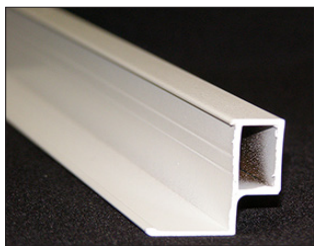

DUO® 9 ALUMINIUM SHADOWLINE PERIMETER TRIM

The DUO® 9 Aluminium Shadowline Perimeter Trim facilitates the use of the Judah 850 Sliding Clip which is able to transfer earthquake loads from the ceiling to the perimeter through the fixed sides.

The DUO® 9 is made from aluminium with a powder-coated finish in tile white (Interpon D34) and is 3.6m in length.

DUO® 9 is a special product and is made available by order, where lead times apply.

For more information on the DUO® 9 Aluminium Shadowline Perimeter Trim, visit www.Judah-Steel.com, or call +1 352 328 1482 to speak with a Judah Technical Sales Representative.
