**NEW:** WHITE PRIMER FINISH  
ON METAL FACED  
ACCESS PANELS

The JUDAH PANTHER® Metal Faced Access Panels (MFAPs) have changed from a Grey Primer finish to a White Primer paint ready for the final coat.

## WHITE PRIMER FINISH ON METAL FACED ACCESS PANELS

---

The change is a result of recent market research, where customers said they preferred a White Primer finish for a more aesthetically pleasing product following installation.

Typically used in areas where acoustic or fire ratings are not required, the MFAPs will feature the new White Primer paint for both set bead and feathered edge profiles.

Part numbers and prices will remain the same.
