# ALUMINIUM MANHOLE FRAMES

---

To complement the existing range of hinged access panels, Judah introduces purpose made lightweight Aluminium Manhole Frames in a series of standard sizes.

The frame is simple to install and can be screwed into place via pre-drilled holes on the side of the frame. A carefully cut out piece of board can then be added into the frame.

The aluminium frames are self trimming and supplied in a matte white finish, which can be painted to match the existing ceiling colour.

The standard sizes are:

300 x 300, 450 x 450, 550 x 550 and 600 x 600mm

## Aluminium Manhole Frame Specifications:

PART NO	WEIGHT (kg)	STOCK PACK	SUB PACK
AMF3030	0.43	25	1
AMF4545	0.64	25	1
AMF5555	0.77	25	1
AMF6060	0.85	25	1
